

## ART AND CULTURE

It seems everyone in Iredell County is either musical, artistic, a photographer, or performer of some kind. Statesville, for instance, has a radio station, WSIC, at 1400 AM and farmers' markets occupy Pecan Park downtown and a Saturday morning venue behind the old hotel.

The City of Statesville gives free concerts in the summer and Art Crawls. There's an art museum next to the old court house, across from the old jail. A civil war era college building stands at the end of Broad Street representing the new community Mitchell College and a remodeled train station at the end of Center Street. Renewed old City Hall on Center Street and a brand new City Center building with a fresco center of Iredell County. It's truly a town in transition and interesting to watch.
